

# Fantasy RPG Original Soundtrack Music Pack

Thank you so much for purchasing this wonderful music pack!

In this pack you'll find the following files:

1. There are 7 compositions that share the same leitmotif or music melody. This is really useful for achieving coherence as a soundtrack. You'll find hints to this main melody in the 7 tracks, but each one has its own purpose in a soundtrack.
2. I provide 3 folders per track, depending on the format of the file. You'll find MP3 320Kpbs, Wav 16 bits 44 Khz and also Wav 24 bits 48 Khz.
3. In each of these folders you have two more folders ( Main Track) and Stems.
4. The main track folders contain the full version of each track.
5. The Stems folder contains different instruments separately per track. This gives you a lot of freedom when implementing the music in your game, as it will allow you to decide if you want the percussion or not, or if you want only woodwinds here or there, etc.

The Main Theme track has two different versions. One loops and another one doesn't.
